

Amsterdam DC Battery Customization Company

Where are cleantron batteries made?

Cleantron develops and produces Li-ion Battery Packs in Nieuw-Venep, on bicycle distance of Amsterdam, The Netherlands. The Batteries of Cleantron are used in several markets, like Industry 4.0 (AGV's Yellow Goods); LEV's (e-Scooters/e-Motorcycles), Electric Vehicles (Urban Mobility) and the Automotive Sector.

How cleantron manufactures batteries?

Since 2014, Cleantron produces in a semi-automated assembly plant Batteries Packs that are based on Design for Assembly, Mechanical FEA and Thermal Analyses. For welding of the Cells, that are always independently suspended, we are using only automated industrialized connective technologies.

Is a battery a golden age?

The battery has entered a golden age. It has already been indispensable for a range of applications, but with the anticipated transition to electric driving and increasing adoption of renewable energy sources, the world is rushing to increase battery manufacturing capacity.

Who makes BMW batteries?

The lithium-ion batteries we run in our containers are manufactured by BMW. The batteries were developed for BMW's electric cars (i3 and i8). They are the most durable, most reliable and safest batteries currently available. Power supply is very important to us.
