

Battery Industry Association Company Ranking

Who is the largest battery company in the world?

Contemporary Amperex Technology Co. Limited (CATL) has swiftly risen in less than a decade to claim the title of the largest global battery group. The Chinese company now has a 34% share of the market and supplies batteries to a range of made-in-China vehicles, including the Tesla Model Y, SAIC's MG4/Mulan, and Li Auto models.

How many companies are involved in battery manufacturing?

Currently, there are thousands of companies globally involved in battery manufacturing, ranging from large multinational corporations to smaller, specialized firms. We present the largest and most influential battery manufacturers, exploring their market positions and strategies that have enabled them to dominate the industry. Did you know?

Which EV battery manufacturer has the largest market share?

According to SME Research, CATL is the world's largest EV battery manufacturer, with 37.7% of the market share. Plus, it is the only battery supplier with a market share of over 30%. CATL has 6 R&D facilities, five in China and one in Germany. In 2023, they spent about \$2.59 billion in R&D, an 18.35% increase from the previous year.

What are the top 10 power lithium battery manufacturers in the world?

The world's top 10 Power Lithium battery manufacturing companies include China's CATL, BYD Company, Panasonic, and Guoxuan, with a total of five large lithium battery companies. CATL had sales of 32.5 GWH last year and a market share of 27.87%, firmly ranking first in the world.

Who makes the most EV batteries in the world?

China is the undisputed leader in battery manufacturing, dominating the global production of essential battery materials such as lithium, cobalt, and nickel. Chinese companies supply 80% of the world's battery cells and control nearly 60% of the EV battery market. 13. Amperex Technology Limited (ATL) 12. Envision AESC 11. Gotion High-tech 10.

How big is the global battery market?

As the demand for EVs, renewable energy storage, and portable electronics continues to increase, the race to produce efficient, high-capacity batteries becomes more intense. The global battery market is projected to reach \$329.8 billion by 2030, growing at a CAGR of 15.8%.
