Equatorial Guinea is a country located in Central Africa, with an area of 28,000 square kilometres (11,000 sq mi). Formerly the colony of Spanish Guinea, its post-independence name evokes its location near both the Equator and the Gulf of Guinea. The discovery of large oil reserves in 1996 and its subsequent exploitation have contributed to a dramatic increase in government revenue. ...

Battery cell transplantation company in Equatorial Guinea

haematopoietic stem cell transplantation. Int J Lab Hematol. Chung, Y, Kong, JH, Hu, Y, et al. (2021), Comparison of spectra optia and amicus cell separators for autologous peripheral blood stem cell collection. J Clin Apher.

Our understanding of how the brain assembles its circuits and how this goes awry in disease remains incomplete. There has been great progress in generating human neurons from stem cells in vitro and, more recently, in constructing circuits with human cells in vivo by transplantation. Here, I highlight approaches, promises, and challenges of growing human ...
