

Brazzaville local new energy battery company

Will BB energy become a regional power company in southern Africa?

BB Energy has plans to become a significant regional power company in Southern Africa. Our power trading business took a major step forward in April 2024 when Solarcentury Africa was granted full membership of the Southern African Power Pool (SAPP) as a market participant.

What makes Starz a great battery manufacturer?

Starz is striving to be the first and largest battery manufacturer in North Africa. Starz Energies R&D efforts aim to make energy storage more efficient, greener, and more affordable. Our Lithium-ion batteries possess higher performance than the average batteries in terms of density, power, charge time, calendar life and safety characteristics.

Who is BB Energy Renewables?

BB Energy Renewables has more than 30 dedicated professionals with expertise spanning solar farms, battery storage, carbon trading and renewable power trading. Our three main areas of activity are Solarcentury Africa, carbon trading, and renewable power trading through the Southern African Power Pool (SAPP).

Our Renewable Energy Division was established in 2020 to invest either directly or indirectly in renewable energy opportunities such as solar generation, battery storage, electric vehicle (EV) ...
