capacitor matches the capacitor part number printed in the Part Number list in the Back Ordered Parts section on the Back Order Notification form (CSP-2490-215-ss). For replacement capacitors, typically the part numbers are 80026-511-xx. Report Damaged Capacitors If the capacitors are damaged, do the following:

Capacitor cabinets are essential elements for optimizing the energy efficiency and stability of electrical networks. Capacitor cabinets are used to correct the power factor: correction of the PHI tangent of an electricity consuming or producing installation. They compensate for reactive power in an electrical network, which improves energy efficiency and stabilizes voltage.
