China module prices are dropping rapidly, with opening bids for some recent domestic projects all lower than CNY1.5/W, noted multiple sources. Downstream demand is huge, with 48.31 GW installed...

Starting December 1, 2024, China will reduce the export tax rebate rate for solar cells and panels from 13% to 9%. This change will lead to a 4% increase in the price of solar panels imported from China. As a result, many companies are expected to actively establish solar panel manufacturing plants outside of China.
