

# China s home solar generator

Solar generators are available as both portable generators and backup home generators. Most solar generators are portable, lightweight, and have a built-in handle. The best portable solar generators are used to provide power for construction sites, campers, events, or other settings where access to electricity is limited.

A mobile solar generator refers to a portable and versatile energy solution that harnesses solar power for electricity generation. These systems include solar panels for capturing sunlight, energy storage components for holding the generated power, and built-in inverters to convert the stored energy into usable electricity.

Find Home Solar Generator manufacturers from China. Import quality Home Solar Generator supplied by experienced manufacturers at Global Sources.

For solar charging, you need a special solar adapter cable that some manufacturers include in the solar generator kit. An average solar charging time is around 5 hours, but large generators like the Renogy Lycan 5000 and the Bluetti EP500 have a dual-charging mode which lets you charge from the grid and solar at the same time.
