

# Consignment regulations for lithium batteries

What are the 2024 lithium batteries regulations?

2024 Lithium Batteries Regulations (continuation). Any equipment packed with or containing lithium batteries (in particular equipment returned for repair purposes as part of reverse logistics / service parts program), must have the batteries removed from the equipment in order to be accepted for carriage with DHL.

Are lithium batteries subject to additional requirements?

Lithium metal or lithium alloy cells and batteries offered for transport are not subject to other additional requirements of these Regulations if they meet the requirements in this section, in addition to the General Requirements, above.. 5.0.2 .12.1.

What are the shipping requirements for lithium ion batteries?

In addition, lithium-ion cells and batteries shipped by themselves must be shipped at a state of charge not exceeding 30% of their rated capacity. Lithium batteries are dangerous goods, and all of the regulatory requirements must be complied with, as set out in the Lithium Battery Shipping Regulations.

What is the IATA/ICAO regulation for lithium metal batteries?

The IATA /ICAO regulation applies to loosely packed Lithium Metal batteries adhering to Section II, PI-968 while Lithium Metal batteries packed with equipment (PI-969) or contained in equipment (PI-970) are acceptable for transport.

Do lithium batteries need a class 9 hazard label?

Packages containing lithium batteries, or lithium batteries contained in, or packed with, equipment that meet the provisions of Section II of these packing instructions are not required to have a Class 9 hazard label and there is no requirement for a Shipper's Declaration for Dangerous Goods for consignments of these batteries.

What are the limitations on lithium metal batteries?

Lithium metal batteries shipped to, from or through the United States are subject to additional limitations specified in the US national dangerous goods regulations contained in Code of Federal Regulations Title 49 (49 CFR). The basis of these limitations is reflected in State Variation USG-02, which states that:
