

# Convert the price of replacing old battery in a device

How much does it cost to replace a battery on Android?

The cost of replacing a battery for an Android typically ranges between \$50 and \$100, depending on the make and model of your phone as well as the location where you have it replaced. This is certainly cheaper than purchasing a new phone, so consider if you could live with the phone you have for a few more years before rushing out to buy a new one.

How much does it cost to replace an iPhone battery?

For example, if you need to replace your iPhone battery, it will cost you \$99 without AppleCare+ coverage. However, if you have AppleCare+ and your device's battery holds less than 80% of its original capacity, you are eligible for a battery replacement at no additional cost. Another factor to consider is how long you plan to keep your phone.

How much does a Samsung Galaxy battery replacement cost?

The cost of a Samsung Galaxy battery replacement varies depending on the specific model, but it is typically under \$100. So speaking practically, it will often make more sense to just replace the battery. Especially if the phone is in good condition and meets your usage needs.

Should I replace my phone battery or get a new phone?

Ultimately, the decision to replace your phone battery or get a new phone is up to you. I would recommend saving your money and getting your battery replaced before spending hundreds of dollars on a new phone. However, I also understand that some of you may want (or even need) newer features and can't live with an older phone for a few more years.

Should I replace the battery of my iPhone?

If your phone is only a few years old and you enjoy the features it currently has, then replacing the battery would certainly be the more affordable option for you. Apple charges a service fee to replace the battery of an iPhone. The cost of the battery replacement depends on the model of your iPhone.

How much does a phone repair cost?

For instance, cell phone charging port repair costs can range from \$20 to \$90 -- whereas broken screen repair costs between \$50 and \$329, and water damaged phone repair costs can range from as little as \$30 to well over \$100. The Swappa Repair Calculator gets rid of the guesswork. Don't waste your time searching for phone repair price lists.
