CIIC regularly purchases goods and services from local and international markets to support its operations and implement projects. As a Government funded and owned entity, CIIC's procurement processes follow the Cook Islands Government Procurement Policy. The Gov Procurement Policy documents are available on the MFEM website.

In the multi-layer ceramic capacitor (MLCC) manufacturing process, dielectric is stretched into paste form, pressed, and baked in a firing furnace. The firing process requires the introduction and addition of atmospheric gases such as Air, N₂, O₂, and H₂O to the furnace. The quality of ceramic capacitors (cracks, surface warpage) depends on the control of introduced gases, ...
