

When will a 250 MW battery project start in Turkey?

Of note, a 250 MW project is under development in Turkey, with an envisaged capacity of 1 GWh. The batteries would be used for balancing services for the independent Transmission System Operator in Croatia (HOPS), domestic media reported. The European Union's documentation shows the project is scheduled to start at the beginning of December.

Did Croatia get the green light for IE-energy's massive energy storage project?

Croatia got the green light from Brussels for a EUR 19.8 million grant to IE-Energy for a massive energy storage project.

Will IE-energy accelerate the decarbonization of Croatia's energy sector?

In addition, it will accelerate the decarbonization of the Croatian energy sector, according to the announcement. IE-Energy is based in Rijeka, Croatia's fourth-largest city. It joined the intraday and day-ahead markets at the Croatian Power Exchange (CROPEX) last year. Documents reveal the project is scheduled to start on December 1.

Will IE-energy build the biggest battery system in southeastern Europe?

IE-Energy is planning to build a battery system of 50 MW, which means it would be the biggest in Southeastern Europe. The European Commission has approved, under the European Union's aid rules, a EUR 19.8 million Croatian aid measure in favor of energy storage operator IE-Energy.

How much does a megawatt-hour (MWh) cost in Croatia?

Maximum reference prices per megawatt-hour (MWh) range from EUR 67.05 (USD 71.71) to EUR 158.30. Successful projects stand to receive up to EUR 30 million each in market premiums. HROTE's initiative represents a significant advancement in Croatia's renewable energy objectives.

IE-Energy will build the first battery system near Sibenik, with a capacity of 100 MWh and 50 MW of power. The first phase of the project, with a power of 10 MW and a capacity of 22 MWh, should be completed during the ...

NTPC, India's biggest electric power utility with a 76GW generation fleet, has opened a tender for a long-duration energy storage (LDES) flow battery project. NTPC posted a tender document to its site last week (14 June), making an invitation for bids (IFB) to supply, install, commission and integrate a vanadium redox flow battery (VRFB) of 600kW output and ...

On 21 August 2024, the Bulgarian Ministry of Energy opened a tender procedure for National infrastructure for storage of renewable energy (RESTORE) for granting stand-alone battery energy storage system (BESS)

tender funded under the EU's Recovery Resilience Facility (the "Procedure"). The deadline for submitting applications will be 17:00 on 21 November 2024.

Latest Croatia Battery Tenders, Government Bids, RFP and other public procurement notices related to Battery from Croatia. Users can register and get updated information on Croatia Government Battery Tenders, RFQ, government contracts and eprocurement tenders.

Latest Croatia Battery Tenders, Government Bids, RFP and other public procurement notices related to Battery from Croatia. Users can register and get updated information on Croatia ...

The BESS tender is part of Bulgaria's RESTORE Project, which aims to provide funding for constructing and putting into operation at least 3000 MWh in battery storage capacity to enhance the balancing of the electricity ...

The Government of Croatia is preparing EUR 500 million for the installation of batteries for storing renewable energy. Minister of Economy and Sustainable Development Damir Habijan said Croatia is ready for changes in ...

In a significant stride towards energy modernisation, Croatia is setting aside EUR 500 million for the development of large-scale energy storage systems. The announcement was made by Damir Habijan, Croatia's Minister of Economy and Sustainable Development, at the seventh international energy conference hosted by Jadranski Naftovod (JANAF ...

South Africa's first public battery storage tender has awarded preferred bidder status to a consortium of CIP-owned Mulilo and renewables major EDF for three battery projects totalling 257MW/1,028MWh. Mulilo, a ...

In a significant stride towards energy modernisation, Croatia is setting aside EUR 500 million for the development of large-scale energy storage systems. The ...

The value of the works for the LNG Terminal expansion stands at around 23 million euros. LNG Croatia has just launched a public consultation process ahead of the announcement of the tender for conversion of the vessel for receiving, storage and gasification (FSRU) LNG Croatia for the purpose of increasing the capacity of the terminal.

The Brazilian Minister of Energy and Mining has unveiled an auction for battery energy storage projects to be held in 2025. A public consultation regarding the auction should be launched in the coming days, as details regarding the capacity sought and the total amount allocated for the auction have not yet been disclosed. This article requires Premium ...

The Ministry announced the Call this week (17 April) which will provide EUR100,000 - EUR2 million per project with a maximum of EUR4 million per beneficiary. The goal of the Call is to facilitate the deployment of 20MWh of energy storage and 80MW of renewable energy projects.

Short description: Tender Announcement for acquisition of LiFePO<sub>4</sub> (battery and control system)  
Procurement number: 2020/562811 - 10 Deadline for submission of offers: 18.10.2023, 18 ...

The Government of Croatia is preparing EUR 500 million for the installation of batteries for storing renewable energy. Minister of Economy and Sustainable Development Damir Habijan said Croatia is ready for changes in the energy sector.
