

Does Castries produce Kenyan batteries

Will Kenya have a battery factory?

ABM has further warned that the stock of lead, the raw material used in battery manufacturing, in Kenya will not last long, after which there will be no locally-made batteries. Consumers will be forced to buy the low quality imports and jobs will be lost as more factories close down.

Who are associated battery manufacturers?

Reliable, innovative batteries. Together for the long run. ABM (Associated Battery Manufacturers) is the only battery manufacturing company in Kenya, and the largest in East and Central Africa. We produce both vented and maintenance free batteries for automotive and solar use.

Are East Africa's battery manufacturers a Chinese onslaught?

Battery manufacturers in East Africa want their governments to protect them and consumers from what they are calling a Chinese onslaught. This follows the collapse of East Africa's biggest battery maker, Kenya-based Associated Battery Manufacturers (ABM), attributed by industry players to cheap imports from China.

Who are associated battery manufacturers (ABM)?

ABM (Associated Battery Manufacturers) is the only battery manufacturing company in Kenya, and the largest in East and Central Africa. We produce both vented and maintenance free batteries for automotive and solar use. We pride ourselves on maintaining the highest possible standards of safety, ingenuity and environmental responsibility.

Where do African buyers buy automotive batteries?

A large number of African buyers are also buying their requirements for automotive batteries from suppliers, wholesalers of batteries in Dubai. The manufacturers are being supported in their campaign by their respective revenue authorities, national environmental bodies, trade ministries and, notably, the East African Community.

Why does China not sell old batteries?

Due to its scarcity and high demand, the countries do not sell the raw material, but instead prefer to market finished products. China circumvented this problem through the mass importation of old batteries, especially from the developing world, notably Africa. Previous Next
