

Dominican Energy Storage Project Tender Announcement

What is the first solar-plus-storage project in the Dominican Republic?

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS). The Comisión Nacional De Energia (CNE) of the Dominican Republic announced the start of work on the Dominicana Azul solar projectshortly in late December (22 December).

What is the Dominicana Azul solar project?

The Comisión Nacional De Energia (CNE) of the Dominican Republic announced the start of work on the Dominicana Azul solar project shortly in late December (22 December). Construction has started on the first major solar-plus-storage projectin the Dominican Republic, featuring a 99MWh battery system.

Is Zenith launching a solar farm in the Dominican Republic?

Source: Comisión Nacional de Energía () Zenith Energy Corp SRL,a subsidiary of Blacktree Capital Management,has initiated construction of the 101.2-MWp Dominicana Azul solar farm in the Dominican Republic,launching a project that will boast the Caribbean nation's first battery energy storage system (BESS).

How much power will the Dominicana Azul solar farm produce?

The Dominican national energy commission CNE said that the solar farm will have a BESS of 24.8 MW of power and 99.2 MWh of storage capacity. The Dominicana Azul plant will be capable of producing around 176.4 GWhof electricity annually for the national grid. Zenith Energy will build the facilities in the Cabrera municipality.

A notable achievement is the upcoming launch of the first four-hour energy storage system linked to a solar project, set to be operational by mid-2025. This system will participate in the spot market without a power purchase ...

The National Energy Commission of the Dominican Republic has announced the signing of a definitive concession contract with Dominican company Akuopowersol for the ...
