

Santo Domingo - The executive director of the National Energy Commission (CNE), Edward Veras, announced during Energyyear Caribe 2024 that the CNE's board of directors approved the modification of Resolution CNE-AD-0004-2023, which raises the storage requirements for renewable energy projects.

At the same time, land is a precious commodity for our ever-expanding cities. With SeaFloat, our engineers have created a trailblazing, highly efficient floating power plant on a mobile, self-supporting barge. One of our most recent projects is the Estrella del Mar III power station, which is being deployed in the tropical Dominican Republic.

The president of AES Dominicana, Edwin De Los Santos, on Thurs. announced the commissioning of 20 megawatts of energy storage through power plants AES Andres and Dominican Power Partners, thanks to the innovative and revolutionary system developed by the AES Corporation, aimed at providing the frequency regulation service to the National ...

The stakeholders estimated that by 2028, the Dominican Republic will need to deploy between 250 to 400 MW of energy storage systems. Their projection is based on the ...

The national energy commission (CNE) of the Dominican Republic this week granted a definitive concession for a 83.4-MW/101.6-MWp solar project with storage, while the nation's Vice President, Raquel Pena, led the inauguration of a 58.48-MW/64.70-MWp solar farm.

A notable achievement is the upcoming launch of the first four-hour energy storage system linked to a solar project, set to be operational by mid-2025. This system will ...

Wärtilä; is in the final stages of commissioning its first energy storage project in the Netherlands, the country's largest such system to date. The 25 MW/48 MWh battery system supplied to GIGA Storage will be utilised by Eneco, a leading Dutch energy provider.

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS). The Comisión Nacional De Energia (CNE) of ...

The VBB project commissioning was the primarily reason for Neoen's near treble energy storage revenue increase in Q1 2022. Image: Victoria State government. Neoen recorded a near three-fold increase in revenue from its energy storage segment in Q1 2022. The independent power producer (IPP) recorded total revenues of EUR109.1 million (US\$115 million) ...

Test commissioning at the site in Herdecke, Germany, got underway in November 2021. Image: RWE. Used lithium-ion batteries taken from carmaker Audi's electric vehicles (EVs) have been repurposed into a "second-life" stationary energy storage system by energy company RWE at a project in Herdecke, Germany.

The Dominican Republic's national energy commission CNE has granted a definitive concession for the construction and operation of a 49.98-MW/60.04-MWp solar farm equipped with a battery energy storage system (BESS).

Commissioning Energy Storage Systems; Commissioning Energy Storage Systems. Published: January 30, 2024. By: Nicole Imeson . Energy storage systems (ESS) store energy in batteries until needed. These systems capture generated energy (often paired with renewable sources such as wind or solar) and supply it to end users during off hours. The ...

La nueva normativa, que será emitida oficialmente tras completar pasos administrativos, requerirá que los proyectos de más de 20 megavatios incluyan al menos un ...

Santo Domingo - The executive director of the National Energy Commission (CNE), Edward Veras, announced during Energyyear Caribe 2024 that the CNE's board of directors approved the modification of Resolution ...

Con el objetivo de aumentar las inversiones en fuentes renovables hasta alcanzar el 25% de la generación de energía para 2025, República Dominicana también tiene ...

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS). The Comisión Nacional De Energia (CNE) of the Dominican Republic announced the start of work on the Dominicana Azul solar project shortly in late December (22 December).
