

Egypt battery vibration plate manufacturer

To be the leader manufacturer and distributor of batteries in Egypt, Africa and the middle east markets, committed to provide total customers (Satisfaction)

Forward plate compactor / walk behind plate compactor; Forward plate compactor is also named vibration plate compactor, this is the most common plate compactor. only moves forward and cannot move backward, so the maneuverability is limited. It is mainly used to compact granular soils such as sand gravel, or asphalt in a small area.

Egyptian Plastic & Electrical Industries Company was founded in 1945 and is one of the biggest Egyptian Industrial companies to date. Its product range are: Lead acid batteries, artificial leather and industrial foam.

Three main factors when selecting the right battery: Vibration resistance: For trucks with rear-chassis battery installations (e.g. Euro 5/ Euro 6 trucks), robust and high-vibration-resistant batteries are mandatory to avoid breakdowns. Vibration resistance is also required for any vehicle operating on bad roads or rough terrain.

Al-Mahy Group is a leading manufacturer of automotive and industrial batteries with over 50 years of expertise in the lead manufacturing industry With Egyptian hands and European technology, we produce high-quality products that are worth your trust.

EVERY BODY DESERVES THE BEST Silent Galileo® Systems. Mechano-stimulation. Redefines Training! WATCH VIDEO PRECISION ENGINEERING Training that's better-feeling & better researched than any other. From the people who pioneered the industry... Galileo's full line of medical and fitness systems originated in 1996, launched by Germany's Novotec Medical - ...
