

# Excellent battery pack

What is the smallest battery pack?

MyCharge Adventure Mini is the smallest power bank in our review. Despite only weighing 0.2lbs, it can fully charge most phones on the market with its 3,350mAh battery capacity. It is also waterproof, dust-proof, and drop-proof, making it one of the best pocket-sized battery packs to bring on short hiking trips. 3.

Which battery is the most efficient?

In fact, this is the most efficient battery on our list, in terms of power-to-weight ratios. At only 100g, the Anker Nano is the smallest, but it still packs in plenty of power for that weight. You could buy six Nano power banks and have more power for less weight than buying the big Anker Prime.

Which battery pack is best for iPhone 12?

For the vast majority of people, Anker's Magnetic Battery Pack (referred to as Anker 622) is the best option for keeping your device charged. It's MagSafe compatible, so it works best with the iPhone 12 and up, but you can just as easily charge things over a wired connection to the battery pack's USB-C port.

What is a good battery pack for an iPhone?

Iniu B61 10000mAh If you need more power than the Anker Nano provides, this Iniu B61 10000mAh packs enough juice to charge an iPhone more than once, and it's small enough to slip into a front pocket without much bulge. It's also a great price for such a sleek little battery pack. 6. Anker MagGo Power Bank (10K)

What is a high capacity battery pack?

For those times you need heavy-duty power--from long road trips to prolonged outages to charging a computer back to full power--a high-capacity battery pack is a must. The INIU 25,000 mAh can charge just about any device for several days.

How much power does a portable battery pack have?

Medium capacity power banks--best for multiple smartphone recharges or tablets--range from 6000mAh to 15000mAh. High-capacity power banks--best for extended travel or computers--range from 16000mAh to 30000mAh and above. Power output determines the overall power of your portable battery pack.

Also known as mobile chargers or battery packs, these nifty gadgets serve as a lifeline to your dying electronics by recharging battery power when needed. Even if they're not a daily...
