

Fully automatic lithium battery stacking machine

What is automatic battery electrode stacking machine?

This automatic battery electrode stacking machine is mainly used in the Z-type stacking process of lithium-ion pouch cells. The pouch cell electrode stacking machine is suitable for lithium battery cathode/anode electrode and separator Z-type stacking process.

How to reduce cycle time for stacking machine?

Achieve reduced cycle time for stacking machine by using the latest high-speed motion system(controller,network,servos). 1 motion controller can support a maximum of 256 shafts. Supports safe PLC and OPC UA safe communication. Use an electronic cam to control the separator feed amount to match the left-right movement of the stacking table.

What are the features of Tmax-dp-150 auto stacking machine?

TMAX-DP-150 is a high-accuracy auto stacking machine with many advanced features to ensure a stable, repeatable and precise electrode stacking. It adopts "Z" glyph laminated. 1 PLC Touch Screen Control with easy condition setting. 2 Continuous "Z" fashion stacking with a separator .

Achieve reduced cycle time for stacking machine by using the latest high-speed motion system (controller, network, servos). 1 motion controller can support a maximum of 256 shafts. Supports safe PLC and OPC UA safe communication. Use an electronic cam to control the separator feed amount to match the left-right movement of the stacking table.

We specialize in designing and setting up lithium-ion battery production lines and laboratory lines with semi-automatic or fully automatic equipment. Once receive your question, the supplier will ...

The TOB-M-DP-200 Battery stacking machine is a semi-automatic stacking machine. It is an ideal tool for stacking multiple layers of positive & negative electrode and separator for pouch cell.

Email: david@tmaxcn <https://> speed: Linear motor feeding, linear mo...

Xiaowei's fully automatic lamination solution, high speed and precise positioning, meets the ...

Dual-Station Fully Automatic Lithium-ion Battery Stacking Machine. Model Number: TMAX-ZTH-04; Compliance: CE Certified; Warranty: 1 year; MOQ: 1; Payment: L/C D/A D/P T/T Western Union; Delivery Time: 5 days

This equipment is suitable for the lithium-ion battery batteries of anode and cathode Z with isolation membrane laminated assembly, automatic outsourcing isolation membrane in the polar group, automatic

Fully automatic lithium battery stacking machine

cutting off the diaphragm, ...

Automatic lithium ion battery electrode stacking machine with the function of automatic battery separator wrapping(after stacking) and automatic adhesive tap...

This equipment is suitable for the lithium-ion battery batteries of anode and cathode Z with isolation membrane laminated assembly, automatic outsourcing isolation membrane in the polar group, automatic cutting off the diaphragm, automatically terminate locking adhesive tape, automatic blanking, manual collect batteries.

Achieve reduced cycle time for stacking machine by using the latest high-speed motion system ...

Automatic Pouch Cell Stacking Machine For Lithium Battery AOT-MSK-111A-ES is a desktop high-precision automatic stacker that can be used in an argon glove box. Using a "Z"-shaped stacking method, the anode and cathode electrodes are alternately stacked with a ...

The TOB-BDP100-S battery stacking machine is mainly used for Z-shaped stack assembly of positive and negative electrodes and separators in lithium battery ...

Tmax Battery Equipments aims to produce high quality Pouch Cell Stacking Machine,we supply all styles of Lithium Battery Assembly Machine with Factory Price. Welcome To Order! en fr de ru es pt ko tr pl th. Give us a call +8617720812054 . Email us David@batterymaking . Language : English. en. fr. de. ru. es. pt. ko. tr. pl. th. Home; Company; Products. Lithium Battery ...

This equipment is mainly used for automatic cutting and automatic lamination of electrodes of lithium-ion batteries. Including the following functions: automatic unwinding of the electrode (the receiving tab of the coil has been laser cut and formed), correction, tension detection, tension buffering, traction, hardware cutting V angle ...

Xiaowei's fully automatic lamination solution, high speed and precise positioning, meets the needs of large-scale lithium battery production. Automatic lamination of battery cells is one of the key equipment for automated production of square lithium batteries.

Dual-Station Fully Automatic Lithium-ion Battery Stacking Machine. Model Number: TMAX-ZTH-04; Compliance: CE Certified; Warranty: 1 year; MOQ: 1; ...
