Why did Zimbabwe give lithium miners up to March 2024?

Zimbabwe has given lithium miners up to March 2024 to submit plans for the local production of battery-grade lithium in a bid to benefit from growing demand for the clean energy mineral, Finance Minister Mthuli Ncube said on Thursday.

Could a spodumene concentrator be a battery-grade lithium producer in Zimbabwe?

Sinomine, which recently commissioned a \$300 million spodumene concentrator at its Bikita mine in southern Zimbabwe, said on Thursday it had started feasibility studies on producing battery-grade lithium in the country.

Is lithium a beneficiation process?

Presenting the 2024 national budget, Ncube said the government does not regard the current production of concentrates by miners in the country as beneficiation, a process in which raw minerals are improved to add value. "Any lithium value addition process that does not result in the production of lithium carbonate is not regarded as beneficiation.

Is a lithium value addition process considered a beneficiation process?

"Any lithium value addition process that does not result in the production of lithium carbonate is not regarded as beneficiation. Lithium producing companies should submit their beneficiation plans no later than 31 March 2024," Ncube said.

Will Huayou explore local production of lithium sulphate?

Its peer Huayou, which bought Arcadia mine just outside Harare in 2022 and built a concentrator which started production earlier this year, has said it would explore local production of lithium sulphate "only when the construction and economic conditions are right".

Which Chinese miners are investing in Zimbabwe's hard-rock lithium reserves?

Zimbabwe's hard-rock lithium reserves, some of the world's biggest, have attracted over \$1 billion of investment from Chinese miners including Zhejiang Huayou Cobalt, Sinomine Resource Group, Chengxin Lithium Group, Yahua Group and Canmax Technologies.

At Sabi Star, a \$45 million processing plant will start separating the lithium-rich minerals from solid rocks to produce 300,000 tons of lithium concentrate per year for export to ...

Australia Stock Exchange (ASX) listed miner, Prospect Resources, developer of the Arcadia lithium mine near Harare, has appointed African Export and Import Bank (Afreximbank) as lead arranger for a US\$143 million syndicated loan facility it needs to finance the lithium-ion batteries project.

HARARE, Nov 30 (Reuters) - Zimbabwe has given lithium miners up to March 2024 to submit plans for the
