How much do 4KW solar panels cost in the UK?

GreenMatch's research has found that the average cost of a domestic 4kW solar panel system in the UK ranges between £5,000 - £6,000 (including installation costs), depending on the type of panels, their wattage, and the manufacturer. Additionally, you can consider solar battery storage.

What is the cost of solar panels?

The cost of solar panels typically makes up 25% to 30% of the total cost for a three-bedroom property in the UK. The cost ranges from £2,250 to £2,700, depending on the type of panels chosen, their efficiency, and capacity.

What is the cost of solar panels in the UK?

In the UK, the most common 4kW solar system costs between £5,000 - £6,000. This system can save the average household about £660 per year, provided they have a decent number of sunlight hours and are installed on a south-facing roof. As of 2024, the price of solar panels can vary depending on several factors.

What is the cost of a 12kW solar panel system?

If you opt for solar panels with a larger than average kW size, for example, 12kW costs can go up to £12,000 - £13,000. One of the most common domestic sizes is a 4 kilowatt (kW) solar panel system, which costs around £5,000 - £6,000 (incl. supply and installation) and will cover around 16 square metres of your roof.

What factors affect the cost of 4KW solar panels in the UK?

The cost of 4kW solar panel systems in the UK depends on the type of panels you install, their wattage and the manufacturer. GreenMatch's research has found the average prices range between £5,000 - £6,000 (including installation costs). Additionally, you can consider solar battery storage.

What is the labour cost for solar panel installation?

The price quoted for installing a solar panel system usually includes any associated labour costs. Typically, installation costs make up around 20% of the price you'll pay for a solar panel system, which works out at £1,400 for a three-bedroom house.

3 KW solar panel price in Kerala is determined by various factors, including the make and type of solar panels, the make, model, and warranty type (on-site or off-site) and warranty duration of the solar inverter used, as well as the complexity of the Solar Mounting Structure, Walkway, and Ladder System for cleaning and maintenance of solar panels.
