

How much does a 16 volt battery cost in Port Louis

How much does a '14 battery cost?

Here's what I found. The battery for my '14 is \$8887.54, but that and the part number really doesn't matter. From what I was told, the part number has to be determined by either scanner or what the numbers are on the battery. It or a segment will be replaced by one that is the same or higher capacity.

How much does a new battery cost?

They may be quite WRONG. Many people have quoted prices from various online parts vendors like GM Parts Direct saying that the cost is around \$2,500. That price is closer to the MINIMUM price which depends on the condition of the battery being traded in. Depending on the condition of your existing battery... the cost can be upwards of \$34,000!

How much does a Leaf battery cost?

But seriously, the Leaf battery is under \$6,000 so there is no reason the Volt battery would cost that much. They are the same chemistry. As far as we can tell no body has had to pay for a replacement battery. I've yet to read of any real battery degradation.

How much does a 2012 Volt battery replacement cost?

The real, today, price for a 2012 volt battery replacement from a GM dealer, including all three battery modules and tax, is \$13,721.60. It is very frustrating that there is a narrative on the internet that it can be done for a few thousand dollars, or that a salvage pack can be installed by a dealership.

Is the low voltage battery replacement cost real?

This topic has been discussed and debated for years. Even within the past month there were some who doubted or remained unconvinced that the low Volt battery replacement cost we have seen advertised at around \$3000 by online parts suppliers was real. This despite our own WOT saying it was real but required an exchange.

How much does a shop battery cost?

Cost of the battery for a "shop" is \$1900, or thereabouts. No core, so the "condition" of the old battery is irrelevant. Yes. Total BS. Cost of the battery for a "shop" is \$1900, or thereabouts. No core, so the "condition" of the old battery is irrelevant. I certainly hope you are right. What source told you the "shop" cost exactly?
