

Where can I find a charging cable in Iceland?

An electric car in Iceland comes with a charging cable in the vehicle. You can also use the navigation system in the car or Google Maps to find charging stations around the country.

Is it legal to use EV chargers in Iceland?

Yes, EV chargers are legal in Iceland. However, there is a problem with ICE cars and even some EVs blocking EV chargers. Unfortunately, you can only request to have them legally towed away if they are marked with an official sign (which is typically not the case).

Where can I get a charging key in Iceland?

For locations, see their map. You need an Icelandic ID number ('kennitala') to order the RFID charging keys, so tourists cannot obtain these directly. At least one Icelandic car rental company provides ON keys when renting from them.

Does IKEA have electric car chargers in Iceland?

IKEA has plenty of free chargers in Iceland. Since the IKEA restaurant is typically the cheapest (fast) food in Iceland, you can fill your car's battery with electrons and your stomach with french fries in parallel.

Where can I get Free charging in Reykjavik?

Free charging stations can be found in the Reykjavik area at shopping malls and IKEA. Kringlan and Smáralind malls offer free charging at a few spots of their parking spaces (marked in green) on Plugshare.

What is the energy source in Iceland?

Approximately 85% of the total energy production in Iceland comes from renewable sources: mostly from geothermal energy and hydropower. To also decrease emissions from the transportation sector, the Icelandic government has recently made the decision to start banning the registration of all new petrol and diesel cars from 2030 onwards.

A key supplier of power to electric vehicles in Iceland with more than 400 charging points nationwide. With their app you can find their closest available charging point to you and purchase power from them directly at their lowest possible rates.
