What is the global lead acid battery market value?

The global lead acid battery market reached a value of US\$34.3 Billion in 2023. Lead acid batteries are rechargeable energy storage devices comprising an anode and cathode as positive and negative terminals. They are connected by the electrolyte to generate electricity through electrochemical reactions.

What are the future opportunities for the lead acid battery market?

In order to benefit from the increasingly apparent opportunity for boosted revenue generation streams, major telecom players continue to invest in expanding and developing their processes and operations, creating future opportunities for the lead acid battery market.

What is the growth rate of automotive lead-acid battery market?

The global automotive lead-acid battery market is expected to grow at a CAGR of about 3.2 % in the forecast period of 2022-2027. As per the analysis by Expert Market Research, the key driving factor for the market is expected to be the growing applications of automotive lead-acid batteries in passenger cars.

What is the global automotive lead-acid battery market value in 2023?

The global automotive lead-acid battery market reached a value of US\$13.3 Billion in 2023. As per the analysis by IMARC Group, the leading companies in the automotive lead-acid battery market are engaged in product innovations to expand their product portfolio.

What is the global lead-acid battery market size?

According to our (Global Info Research) latest study, the global Lead-acid Battery market size was valued at USD 65480 million in 2022 and is forecast to a readjusted size of USD 80350 million by 2029 with a CAGR of 3.0% during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

Who are the major players in the automotive lead-acid battery market?

Exide Technologies Inc., GS Yuasa International Ltd, Panasonic Corporation, and Leoch International Technology Limited Inc, among others, are the major players in the global automotive lead-acid battery market. The global automotive lead-acid battery market is expected to grow at a CAGR of about 3.2 % in the forecast period of 2022-2027.
