# Lithium battery for electric hand saw

Lithium-ion batteries: Lithium-ion batteries have replaced nickel-cadmium batteries as the preferred power source for cordless tools. These batteries are lighter, longer-lasting, and provide more power than traditional batteries.

However, all battery-powered chainsaws require bar and chain oil to stay lubricated. Without this oil, the guide bar and chain would get dry and not work properly. The cutting efficiency will reduce drastically without proper lubrication, and the chain can get snapped pretty quickly. This is why you need to make sure that your electric chainsaw has bar oil in it all the time and the oiler is ...
