The cost of lithium-ion batteries per kWh decreased by 14 percent between 2022 and 2023. Lithium-ion battery price was about 139 U.S. dollars per kWh in 2023.

Works best for me if the wood is under 6" thick. Only problem I have found is using a 10inch blade and cutting a 10 inch diameter tree. The battery will heat up about half way through and the saw will stop. Wait for the battery to cool down and then you have to recharge it. Overall I think this is a good saw at a good price.
