

Lithium battery inflatable board

What kind of battery does a lampuga surfboard use?

The Lampuga surfboard is powered by a lithium-ion battery with a capacity of 3.6 kWh. Depending on the riding style, weight, level of experience and weather conditions, the riding time is up to 60 minutes. The use of a plug & play system allows effortless charging or changing of the battery.

What is the best inflatable surfboard?

The Lampuga AIR is easy to ride due to its volume of 200 liters with a length of 230 cm and a width of 75 cm. You can stand up with almost no speed. The inflatable surfboard made of double layer PVC is ideal for schools, rental companies and yacht owners thanks to its soft hull.

How much does an inflatable surfboard weigh?

The inflatable surfboard made of double layer PVC is ideal for schools, rental companies and yacht owners thanks to its soft hull. The battery lasts up to 60 minutes and can be recharged in 120 minutes. The 14 HP (10 kW) motor is suitable for speeds of up to 50 km/h. The weight is approx. 50 kg, including the 25 kg battery. excl. Shipping

What is the best inflatable jetboard?

The Lampuga Airis one of the best jetboards on the market, especially if you have limited storage space. The board is MADE IN GERMANY and shines with its performance, ease of use and practical design. The inflatable jetboard is quick to set up, easy to transport and guarantees recreational fun for the whole family.

Should you buy an inflatable Electric SurfBoard?

If you opt for an inflatable electric surfboard, you need to bear in mind that it has a battery compartment. However, inflatable surfboards are easy to store and most people choose this option to avoid problems with limited storage space. Another important point is that an inflatable surfboard is more robust than those with a rigid plastic hull.

Which Flite board is best?

Flite has some of the best efoils and the Fliteboard 4 incorporates the best of the sum of the company's parts. Atop the Series 4 mast with dual propeller options and wing combinations for rider level and style, the 100-liter board is a beginner and intermediate-friendly option that we enjoyed.
