The whole bit runs on a Dewalt 6AH 20-60v lithium ion &quot;flex volt&quot; output battery with a commercially available adapter clip to pull power. An inline on off switch with a fuse to prevent a surge connects to both a 12 volt regulator to bring the available 20-60 volts to a stable feed, and directly to a waterproof external PD port (from a watercraft supply). The main also branches to ...

## Lithium battery with mobile power supply

Batteries can be charged manually with a power supply featuring user-adjustable voltage and current limiting. I stress manual because charging needs the know-how and can never be left unattended; charge termination is not automated. Because of difficulties in detecting full charge with nickel-based batteries, I recommend charging only lead and lithium-based batteries ...
