

New Energy Battery Outlet Training

What is New Energy Academy?

Welcome to the New Energy Academy online training platform! You can log in using your personal details on the top right of this page or purchase a course on our shop page New Energy Academy is a capacity-building collaboration between OpenSolar, New Energy Nexus and Global Sustainable Energy Solutions (GSES).

How many hours is a battery training programme?

The programme includes more than 400 hours of training and covers the entire battery lifecycle, including raw materials, cell manufacturing, battery packs, applications/integration, and recycling. The centrality of battery technology to electric vehicle development is beyond question.

How do I contact a new energy trainer?

Our Trainers can be contacted via email to trainer@newenergytraining.com.au, and students can also send direct messages to their trainer via our Moodle learning platform. Further to this regular online video tutorial sessions are provided for students to gain assistance.

Are there new nationally recognized renewable training units in 2022?

Yes! As of December 2022, new Nationally Recognised Renewable Training Units were released. This release contains a complete rewrite of all the existing accredited solar/battery installer/designer training units, but that's not all. More roles such as Sales and Support team members employed in the solar industry now have access to formal training.

When will the SAE/InnoEnergy battery Institute launch?

The SAE/InnoEnergy Battery Institute will launch in the first quarter of 2023 on SAE International's learning management system. Sustainable Mobility Solutions, the innovation unit of SAE International, just announced its new partnership with EIT InnoEnergy to deliver a comprehensive training programme in battery technology.

When does a battery recycling course open?

Course will open on October 4. Delve into the options for handling batteries at end-of-life: reuse and recycling. This self-paced online learning course is designed with your busy schedule in mind, requiring only 3.5 hours of commitment.

The NENY Battery Academy provides flexible, facilitated training through online learning modules, ideal for battery and energy industry jobs.

Gain a comprehensive understanding of crafting efficient and sustainable solar/battery/genset system solutions for off-grid scenarios. Explore key principles, practices, and regulations to build a robust foundation in off-grid ...

New Energy Battery Outlet Training

With its Training and Webinar agenda, KACO new energy offers technicians and electricians a platform for continuous learning. We provide you with high-quality, practical trainings or in-depth Webinars in the areas of residential and commercial PV systems as well as large-scale solar power plants. Knowledge unlimited

Introducing the New Energy New York Battery Academy, hosting workforce development courses and program pathways in the world of energy storage. The Battery Academy will offer a comprehensive range of ...
