A nickel-metal hydride battery (NiMH or Ni-MH) is a type of rechargeable battery. The chemical reaction at the positive electrode is similar to that of the nickel-cadmium cell (NiCd), with both using nickel oxide hydroxide (NiOOH). However, the negative electrodes use a hydrogen-absorbing alloy instead of cadmium. NiMH batteries can have two to three times the capacity of ...

HIGH CAPACITY - The Tenergy 12V rechargeable battery pack made of 10 x AA NiMH cells, features a high capacity rating of 2000mAh. Increase the run time of your 12V powered devices with a battery that will go the distance!

A NiMH battery can have two to three times the capacity of an equivalent size NiCd, and its energy density can approach that of a lithium-ion battery. ALL IN ONE provides a wide range of NiMH battery pack modules and smart chargers for every portable power solution.
