A worker on a production line sews pants, 14 May 2. Boy is seen walking near buildings which were damaged by an earthquake in 1972. Buildings ...

The most commonly used and produced capacitor out there is the ceramic capacitor. The name comes from the material from which their dielectric is made. Ceramic capacitors are usually both physically and capacitance-wise small. It's hard to find a ceramic capacitor much larger than 10¹⁸F. A surface-mount ceramic cap is commonly found in a tiny 0402 (0.4mm x 0.2mm), 0603 ...
