The long duration flywheel stores energy via momentum in a spinning mass of steel. It consists of a large steel mass rotating around an axis. It stores energy in the form of kinetic energy by accelerating a large multi-tonne steel rotor to high speeds of 150 Hz in a vacuum and magnetically lifted off the bearings to reduce air drag and friction respectively.

We are a leading provider of high-quality solar panels, batteries, inverters, and accessories, all offered at competitive prices in Harare, Zimbabwe. Empowering You with Solar Energy: We understand that switching to solar power can be a significant decision. That's why we're here to guide you every step of the way.
