

These manufacturers specialize in producing high-quality ceramic capacitors that meet the needs of various industries. They offer a range of products, from small surface-mount capacitors to large high-voltage capacitors. Some manufacturers also offer custom-designed capacitors to meet specific customer requirements.

Discover the essentials of ceramic capacitors, their materials, custom designs, applications, certifications, and reliability. Learn more with Exxelia. High Voltage Ceramic Capacitors Based On Brand New Dielectric Material. Discover Exxelia's high voltage ceramic capacitors with new C48X dielectric, offering unmatched stability, capacitance, and low dissipation . See success story. ...

Ceramic capacitors - Capacitors - Passives | Check out the TME catalog offer. Instant shipping of orders!

Excellent temperature resistance, high volume/capacitance ratio, electrical properties and reliability make Exxelia's ceramic capacitors ideal for a wide range of fields of application including medical implants, aircraft flight controls, switched-mode power supply in harsh environments, core samplers for petroleum exploration, and space ...

TPL designs and produces specialty ceramic capacitors using formulated titanate powder. Specialty parts, primarily for high voltage and high frequency applications, are produced to meet custom dimensions and electrical properties. TPL's processes accommodate a range of capacitor and substrate geometries. In addition, power formulations are ...

Explore our collection featuring high-quality ceramic capacitors in various capacitance values, voltage ratings, and sizes. Whether you're looking for surface mount or through-hole configurations, we offer capacitors suitable for different applications, from consumer electronics to industrial machinery.

Ceramic capacitors consist of two or more alternating layers of ceramic material as the dielectric and metal layers acting as the non-polarized electrodes. Applications include automotive, bypass, decoupling, filtering, RF, and ESD protection.

Our custom products include nonstandard part sizes and voltages, including high voltage, high temperature, high "Q", custom leads, cryogenic ceramics, negative and positive temperature characteristic ceramics and piezoelectric formulations. We have a series of patented microwave and radio frequency products including patented single layer and ...
