

Roof opening solar lighting

What are opening rooflights?

Opening rooflights, also known as skylights, are hinged or sliding windows installed on roofs to provide natural light and ventilation to a property. They can be vented or electronically-operated and can also serve as an extra access point to a roof terrace. Sunsquare designs and manufactures any rooflight configuration to meet individual requirements.

Is the opening rooflight manual or electric?

Whether you prefer manual or electric, this Opening Rooflight provides both options with its unique design. Electric operation requires a mains power connection and the option of a rain sensor or remote control to operate. The manual version uses a worm gear with pole (sold separately).

How long does it take to open a rooflight?

Opening Rooflights for Flat Roofs. A large range of sizes and glazing options that can be delivered in as little as 24 hours! Manual and Electric Hinged Rooflights are perfect for rooms and areas that require ventilation. Hinged Rooflights allow the unit to be manually or electrically operated for easy ventilation.

What are opening skylights for flat roofs?

Opening skylights for flat roofs, as mentioned in the title, are our range of hinged or sliding skylights designed for flat roofs. They can be vented or electronically-operated, making them the ideal solution to provide natural light and ventilation to your property as well as a point of extra access to your roof terrace.

Do you offer opening glass rooflights?

Opening Flat Glass Rooflights. Supplied as a Manual or Electric option and usually with an Insulated Upstand ready to secure to your Flat Roof. We offer opening rooflights from the leading brands such as VELUX, FAKRO, Mardome, Whitesales and more. If you require further assistance then please contact our sales team today.

How do manual opening rooflights work?

Manual opening rooflights are fitted with a chrome screwjack, which is operated using a separate winding pole. The electrically controlled option is opened using 24v electric actuators. Actuators open the rooflight to a maximum of 300mm and can be concealed within a complementary framework if required.

Duplus opening rooflights not only provide a great source of natural light into your home, but also fresh air and ventilation.
