Crafted with a robust die-cast aluminum housing and premium-grade components, this product is built to last. The lithium battery uses high-temperature-resistant 32700 cells, with a lifespan of over 2000 cycles. Each night, the battery's depth of discharge is capped at 60%, ensuring long-term durability and performance.

We employ vertically mounted lightweight cylindrical solar panels with flexible HJT solar cells and a water and UV-resistant coating on poles to minimize dust accumulation. Additionally, with high-temperature lithium batteries, we ...
