

Solar cell import declaration

Why is the United States unable to import solar modules?

Recently, however, the United States has been unable to import solar modules in sufficient quantities to ensure solar capacity additions necessary to achieve our climate and clean energy goals, ensure electricity grid resource adequacy, and help combat rising energy prices.

Can I import solar cells from Cambodia?

Imports of solar cells and modules from Cambodia, Malaysia, Thailand, and Vietnam will not be subject to suspension of liquidation or cash deposit requirements if accompanied by a certification attesting that they are not circumventing the ADD/CVD orders. There are three types of certifications:

How to import photovoltaic panels?

If you want to import photovoltaic panels, you should have at least basic parameters of the goods specified. Based on your requirements, the supplier will be able to suggest you the most suitable product. The country that ranked first in the production of photovoltaic panels in the world is China.

Should you import solar panels into the European Union?

China is the largest manufacturer of solar panels globally. Customs tariffs for photovoltaic modules from this country are very low. That is why importing them into the European Union may be very beneficial. However, one should keep in mind that such installations must conform to many EU market requirements.

Why should you import solar panels from China?

Both the tariffs and the fact that China is the largest producer of solar panels globally make importing them from this country beneficial. As one can see, the duty rates on solar panels imported from China to the EU are very low, and in this case, they're zero.

Did mandatory respondents circumvent the duties on solar cells & modules from China?

All mandatory respondents, except the two mandatory respondents from Malaysia and one mandatory respondent from Vietnam, were found to have circumvented the duties on solar cells and modules from China by completing only "minor processing" prior to shipment to the United States or based on application of total adverse facts available.
