

# Solar panel ground bracket installation video

How do I install solar panels on a ground structure?

Mount your solar panels on the ground structure. Connect your solar panels to your inverter. Maintain your ground-mounted solar panels. For our scenario, we consider the following: System size: A 2.4kW solar system of 6 x 400W solar panels. Total installation time: 2 to 3 days, including the building of the ground structure and solar frame.

How do I install rigid solar panels on my roof?

EcoFlow's rigid solar panels come with a EcoFlow Tilt Mount Bracket for easy rooftop installation. The components include four fixing brackets, two adjustable brackets, and screws. This should be all you need to mount rigid solar panels on the roof or any other flat surface on your home that receives direct sunlight.

Why should you install a solar panel bracket?

The purpose of installing the bracket is to better fix the solar panel. If there is a more convenient and feasible method to fix the solar panel, PVMars will definitely recommend it to you, and effective solutions are based on solar panels' characteristics and your on-site installation environment.

How do you mount a solar panel?

Attach the Fixing Bracket to the Solar Panel's Mounting Hole. Now that you've aligned them properly, attach the fixing bracket to the mounting hole of the solar panel. Repeat this process on the other side of your solar panel. Ensure the bolts' alignment are symmetrical and fix the mounting holes at the same level.

How to install solar panels?

1. Screw the L-shape mounting brackets on top of your frame. Make sure they are perfectly aligned.
2. Slide the aluminum rails in the mounting brackets and tighten them with a screwdriver. Your frame should look like this: Time to put the solar panels in place!

How do I maintain my ground-mounted solar panels?

Maintain your ground-mounted solar panels. For our scenario, we consider the following: System size: A 2.4kW solar system of 6 x 400W solar panels. Total installation time: 2 to 3 days, including the building of the ground structure and solar frame. -- Choose the sunniest spot (full sun). -- Facing south (in Northern Hemisphere).
