

Strong light solar mobile power supply

What is Bigluxe mobile solar energy?

By adopting the latest SOLAR and LED lighting technology, BIGLUX develops and implements the most energy saving and convenient mobile solar energy products. It is more than a solar light tower, it is a mobile solar energy fully featured with lighting tower, CCTV security trailer, communication tower and power charging trailer. [Read More+](#)

What is a mobile solar light tower?

The mobile solar light tower is a portable lighting system integrating solar panels, LED lighting, intelligent control, 4G monitoring system, communication base station, and a hybrid battery storage of solar and grid electricity, suitable for various temporary or long-term lighting needs.

Why should you buy a solar battery charger?

It has a folding function to save space. **Battery Storage and Endurance:** Uses durable and efficient batteries, fully charged in 8 hours and can work continuously for 21-28 hours. It has both solar and grid electricity charging functions for dual assurance.

SunWize's Mobile solutions are stand-alone power systems using solar technology to provide continuous and reliable power to remote site loads. Most systems are standardly equipped with an AC to DC battery charger for energy storage applications, and can be used as an uninterruptible power supply (UPS) in conjunction with an engine generator, thermoelectric generator (TEG), ...

While this certainly is not the most powerful power supply out there (max 150W AC), it is still powerful enough to charge any smaller electronic devices. This power supply would be perfect for use with a laptop, camera, drone, phone, or even a mini-fridge. This makes it a great choice for travel or emergencies. However, it could not be used to ...
