The Solar Energy Corporation of India (SECI) recently released a tender to set up a 125 MW/500 MWh standalone Battery Energy Storage System (BESS) in Kerala with Viability ...

Projects with a combined capacity of 299.8 MW are the final winners in Greece's second tender for battery energy storage systems (BESS) capacity, according to official data released by the Regulatory Authority (RAE). Image by: Eunice Group. Eleven projects by seven bidders were awarded at an average bid price of EUR 47,680 (USD 51,726) per MW a year. ...

The New South Wales (NSW) government's largest energy storage tender in the state's history has now opened, offering support for up to 1 GW of projects that can each release energy into the state's grid for at least ...

The Solar Energy Corporation of India (SECI) recently released a tender to set up a 125 MW/500 MWh standalone Battery Energy Storage System (BESS) in Kerala with Viability Gap Funding (VGF) support. The last date for bid submission is set as February 6, 2025. This marks the 22nd standalone BESS tender in India. This is brought forward by SECI ...

Notably, 60 of the bids were below \$68.4/kWh, signaling competitive pricing trends in China's energy storage market. According to the previously announced plan by PowerChina, this tender aims to select qualified suppliers for energy storage system equipment for 2025-2026. After the selection, a framework agreement will be signed. In the ...

The Solar Energy Corporation of India has invited bids to set up 125 MW/500 MWh standalone battery energy storage system (BESS) in Kerala with Viability Gap Funding under tariff-based global competitive bidding. The project will be set up under the built-own-operate model. The last date for the submission of bids of February 2, 2025.

The German Federal Network Agency (Bundesnetzagentur) has awarded 587MW of solar-plus-storage in its latest Innovation Tender. As has been the case in many of Germany's recent solar PV auctions, the Innovation ...

The German Federal Network Agency (Bundesnetzagentur) has awarded 587MW of solar-plus-storage in its latest Innovation Tender. As has been the case in many of Germany's recent solar PV auctions, the Innovation Tender ended up oversubscribed, with 154 bids made for 1.8GW of capacity out of 583MW tendered capacity.

The Solar Energy Corporation of India has invited bids to set up 125 MW/500 MWh standalone battery energy storage system (BESS) in Kerala with Viability Gap Funding under ...

Telecar Energy Storage Tender

Energy companies like EDF are starting to invest with conviction in electric storage! Our Battery Tenders will be both decentralized aggregated storage, and range extender, allowing the deployment of versatile and mass market EVs. This will leverage EV storage: fifteen 40 kWh EV for each 60 kWh Tender.

Energy-Storage.news" publisher Solar Media will host the 5th Energy Storage Summit USA, 28-29 March 2023 in Austin, Texas. Featuring a packed programme of panels, presentations and fireside chats from industry leaders focusing on accelerating the market for energy storage across the country. For more information, go to the website.

Success for project proposals combining solar PV with battery storage in Germany's latest multiple technology tenders for renewable energy are proof of the importance of energy storage.

India's government-owned National Thermal Power Corporation (NTPC) has launched a tender to deliver a 100MW/400MWh battery energy storage system (BESS). The firm issued an invitation for bids last week (10 October) for the competitive solicitation, offering a turnkey engineering, procurement and construction (EPC) contract for the BESS project.

A spokesperson for Tesvolt, a German designer and manufacturer battery energy storage systems, told Energy-Storage.news that the demand for large-scale storage systems up to 10MWh is currently increasing. The Innovation Tenders are a significant driver of this demand, along with a growing number of hydrogen projects. While Tesvolt's ...

Energy companies like EDF are starting to invest with conviction in electric storage! Our Battery Tenders will be both decentralized aggregated storage, and range extender, allowing the deployment of versatile and mass market EVs. ...

A new tender from the Solar Energy Corporation of India (SECI) seeks 2,000MW of solar PV combined with 1,000MW/4,000MWh of energy storage system (ESS) technology. The state-owned corporation issued a Request for Selection (RFS) and supporting documents yesterday (31 July) for the latest in a quickly growing list of SECI tenders aimed at promoting ...
