

The roof of the house with solar panels is damaged and leaking electricity

Why is a roof leak under solar panels important?

Addressing roof leaks under solar panels is essential for several reasons. First and foremost, a roof leak can cause significant damage to your home if left unattended. Water can seep through the roof and damage the underlying structure, leading to rot, mold growth, and compromised stability.

Do solar panels damage your roof?

While solar panels themselves will not inherently damage your roof, an improper installation can lead to problems down the line. It is crucial to ensure that the installation is done correctly by a professional, or with thorough research and proper planning if you choose to do it yourself.

Can you fix a roof leak under solar panels?

When faced with a roof leak under your solar panels, it's important to take immediate action to prevent further damage to your roof and home. Fixing a roof leak under solar panels requires careful attention to safety precautions and following the proper steps to resolve the issue.

Why do solar panels leak?

Older roofs or roofs with existing damage may be more susceptible to leaks under the added weight and penetration of solar panels. Flashing issues: Flashing is used to create a watertight seal around roof penetrations such as vents, chimneys, or skylights. If the flashing is damaged or improperly installed, it can cause water to seep in.

What happens if solar panels are not installed properly?

Issues such as leaks, broken tiles, and structural damage can occur if the panels are not installed properly. To avoid roof damage, working with experienced installers who understand the intricacies of solar panel installation is essential. They will know how to secure the panels without compromising the integrity of your roof.

Should you delay a solar roof repair?

Delaying repairs can only increase the extent of roof damage and the labor cost. So, if you are aware of the fact your roof has been damaged during, or after the solar panels are mounted, it's time to consult professionals. Call A. Fricker Roofing and Waterproofing today at (918) 402-7167 and talk to experts about your roof repair.
