How much does it cost to change a fan filter?

\$300 to change a filter seems preposterous (my word of the day). Maybe it was for full clean out of the ductwork and fan itself too? Not sure how effective the filter is, but a full cleaning, of everything, is warranted at least once, if only to see where you're at. It might be just a little dusty, or virtually a hair ball, depending on situation.

What is a battery selection guide?

A battery selection guide simplifies the process by enabling you to input specific filters tailored to your vehicle's make, model, and year. By entering these vehicle details, the battery selection guide streamlines the choices, ensuring you discover the ideal match for your vehicle.

How often should a car filter be checked?

Dealership should have it. If you typically don't have passengers and keep the back not that dirty, the filter wouldn't be bad. If you have pets and passengers, check every 6 months-year. Pets that shed are biggest culprits for those clogs. I checked at year 2 and it was still extremely clean. PtPri likes this.

When should I replace my air filter?

I'll probably replace it at 2 years for good measure. The biggest issue is to simply make sure that the filter openings remain unobstructed. Don't pile crap in the floor where it will impede airflow.The biggest issue is to simply make sure that the filter openings remain unobstructed.
