

Which items are better in battery pack warranty

Does a car warranty cover a battery pack?

If you have an electric vehicle or hybrid, the automaker covers the battery pack as a specific warranty item. Just like the powertrain and basic bumper-to-bumper warranties, the car battery warranty for electrified vehicles is covered in time and mileage, and it's usually transferable to subsequent owners of the vehicle.

How long does a battery warranty last?

This means that prorated warranties cover your battery for a longer period of time, usually ranging from 18 to 48 months. On the other hand, free replacement warranties usually have a shorter duration, typically around 12 to 24 months. Now, let's discuss the warranty terms.

What are the different types of car battery warranties?

Let's dive in! There are two types of car battery warranties: prorated warranties and free replacement warranties. Prorated warranties offer longer durations and prorated refunds or credits, while free replacement warranties have shorter durations and provide free replacement batteries.

Can you get a free battery replacement if you have a warranty?

Some battery vendors offer a free replacement for the first part of the warranty and a prorated replacement for the plan's remaining balance. If, for example, your warranty is good for five years and you need a replacement in half that time, you'd be refunded for only half the battery's replacement cost. The free replacement is straightforward.

Do battery vendors accept warranty claims?

Battery vendors normally accept a warranty claim when they link a problem to a manufacturing or material-related defect. Most battery makers point out that merely losing a charge isn't enough to justify a replacement. Vendors often recharge the battery and return it to the customer if it becomes discharged.

What is a prorated battery warranty?

Prorated warranties typically have a longer duration compared to free replacement warranties. This means that prorated warranties cover your battery for a longer period of time, usually ranging from 18 to 48 months. On the other hand, free replacement warranties usually have a shorter duration, typically around 12 to 24 months.

In many cases, batteries are classified as "wear and tear" items, meaning they are not covered by the long-term factory warranty. **Extended Warranty** If you've purchased an extended warranty for your vehicle, the car battery may or may not be included, depending on the coverage.
