Construction has started on what will be the largest battery storage project in Belgium at 25MW/100MWh when completed later this year. Nala Renewables' lithium-ion battery energy storage system (BESS) will come online at metals conglomerate Nyrstar's zinc smelting operation in Balen, in Belgium's Flemish region, by the end of 2022.

It ranks among the world's biggest lithium-ion battery projects so far, and has been switched on by electric power generation and distribution company AES Corporation, which developed the project and signed a long-term agreement for the off-take of its stored energy with California investor-owned utility (IOU) Southern California Edison. "The AES Corporation is ...

It is also likely the biggest eight-hour lithium battery in the world, and will likely cost in the region of \$1.3 billion. Another eight hour lithium battery - the Goulburn River project sized ...

In conclusion, the presenters said that construction projects must robustly risk assess the hazards associated with lithium-ion batteries, and that the following points need to be considered: Awareness needs to be raised ...
